29 Apr 14

Dear Chair Price,

I met and got to know Grant at the St. Joseph County Animal Control. He was a very sweet dog and so deserved a chance at life. Grant was placed in the gas chamber before our volunteers had the opportunity to help him. Please end the gas chamber killing in Michigan. There have been many cases where the dogs are clawing to get out as the gas is being introduced.

I don't know more to say than "please."
